EXPERIENCE

SAUBHAGYAM / React.js Intern - Ahmedabad, IN

06/2026 - Current

- Worked closely with the **Frontend Development Team** through regular coordination, discussions, and task updates.
- Gained hands-on experience working on **live projects** and understanding real-world development workflows.
- Experienced a professional work environment and learned how it differs from academic project development.
- Collaborated with **Product Managers and Management Team** to understand project requirements, priorities, and deliverables.
- Worked on frontend-related tasks and contributed to improving **UI and user experience** across live projects.
- Understood how frontend tasks are planned, assigned, developed, reviewed, tested, and implemented in a professional environment.
- Participated in discussions related to **UI changes, website improvements, and feature requirements**.
- Adapted development work to real client and business requirements rather than only academic requirements.
- Coordinated with different team members to complete assigned tasks efficiently and on time.
- Improved understanding of **responsive design, UI consistency, and frontend implementation**.
- Learned how developers and designers collaborate to convert UI ideas into working interfaces.
- Gained practical exposure to **debugging, testing, and resolving frontend issues** in live projects.
- Improved professional communication, teamwork, task management, and problem-solving skills.
- Built confidence in handling real-world frontend responsibilities within a professional team.

TRACEWAVE TRANSPARENCY / UI/UX Design Internship - Ahmedabad, IN

02/2026 - 05/2026

- Completed day-to-day design responsibilities accurately and efficiently.
- Identified customer needs and contributed to UI/UX improvements based on project requirements.
